

StehrCorp

COMPANY PROFILE

EST. 2021

PREMIUM DIGITAL SOLUTIONS

Innovating the Future. Transforming Ideas into Digital Reality.

Premium Software Development & Digital Strategy

"At StehrCorp, we believe that technology should be a bridge, not a barrier. Our mission is to simplify complex business challenges through elegant, high-performance technical solutions. We don't just build software; we build the digital foundation for your company's future growth."

— Maher Tayfour, Founder

OUR STORY

A Team Built for the Digital Age.

StehrCorp is a team of passionate developers, designers, and strategists dedicated to helping businesses thrive in the digital age. We are industry-agnostic – bringing fresh perspectives and cross-sector expertise to every project, whether you are a startup or an established enterprise.

From day one, our philosophy has been simple: technology must serve people, not the other way around. Every line of code we write, every interface we design, and every system we architect is guided by the real-world outcomes it creates for our clients.

<p>6+ Years of Excellence</p>	<p>10+ Projects Completed</p>	<p>20+ Happy Clients</p>
--	--	-------------------------------------

Client-First
We begin every engagement by deeply understanding your goals, constraints, and users.

Agile Delivery
Iterative builds with clear milestones ensure you see results fast with full control throughout.

Quality-Obsessed
Rigorous code reviews, automated testing, and performance audits are standard practice.

Long-Term Partners
We don't disappear post-launch. Clients rely on us for ongoing support and growth.

WHAT WE DO

End-to-End Digital Capability.

Custom Software Development

Tailor-made solutions designed precisely around your specific business goals, workflows, and scalability requirements.

Web & Mobile Applications

Responsive, high-performance apps built with React, Next.js, and Flutter – across all platforms and devices.

UI/UX Design

User-centric interfaces grounded in research and usability testing that enhance engagement and reduce friction.

Systems Integration

Custom ERP & CRM systems and third-party integrations that streamline operations and unify your data.

Emerging Technologies

IoT services, automation pipelines, and strategic IT consulting to keep your business ahead of the curve.

Digital Strategy

Roadmap planning, tech stack audits, and growth consulting to align technology with business outcomes.

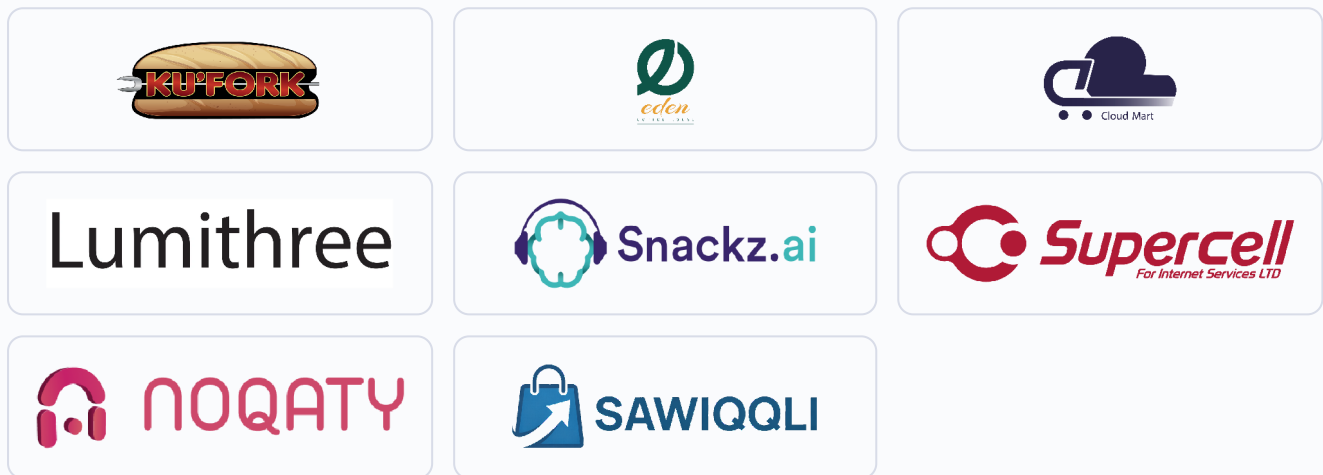

OUR TECHNOLOGY STACK

FRONTEND	React	Astro	Next.js	Flutter
BACKEND	Nest.js	FastAPI	Laravel	
DATA / CLOUD	PostgreSQL	MongoDB	Firebase	

SELECTED CLIENTS

Trusted by Brands Across Industries.

From fast food chains to Canadian consumer brands, multi-vendor marketplaces to healthcare professionals – StehrCorp has delivered high-quality digital products across a diverse range of sectors and geographies.

8-App Ecosystem · Firebase · Full Ownership

Kufork is a fully integrated restaurant management ecosystem designed to streamline daily operations across all departments – designed, built, and deployed entirely by StehrCorp from concept to production, with direct involvement in business and product strategy.

<p>Admin Dashboard Full system control & analytics</p>	<p>Customer App Order, track & reorder</p>	<p>Kitchen System Real-time order prep</p>	<p>Delivery App Driver dispatch & tracking</p>
<p>POS / Cashier In-store order processing</p>	<p>Self-Order Kiosk Dine-in & take-out self-service</p>	<p>Order Call Screen Customer-facing display</p>	<p>Warehouse Mgmt Inventory & stock tracking</p>

Zero Server Costs
Architected entirely on Firebase with advanced Firestore data modeling and Cloud Functions – optimizing reads/writes to run the full ecosystem at \$0/month in ongoing server costs.

Real-Time Cross-App Sync
All 8 apps communicate in real time without traditional or external APIs – ensuring seamless coordination between kitchen, cashier, delivery, and management at every moment.

Operational Impact
Significantly improved order accuracy, reduced service times, and automated inventory tracking – delivering faster workflows and measurable operational efficiency across all departments.

Design & Strategy Leadership
Led UI/UX direction with a dedicated designer, ensured interface consistency across all apps, and partnered directly in product and business decision-making to align technology with long-term goals.

3-App System · Grocery E-Commerce · Mobile Formerly PandaMart

Taken from an idea to a full high-scale system of three apps (User App, Admin App, and Delivery App). Led every stage – from gathering business requirements, directing UI/UX design, managing the development team, to scaling and maintaining the platform post-launch.

<p>10k+ Products on Platform</p>	<p>20k+ App Downloads</p>	<p>\$0 Monthly Hosting Cost</p>
<p>Scale & Growth Migrated client database of 4,000 products; scaled to 10k+ products and 100 active users per day. Published on both App Store and Google Play.</p>	<p>Infrastructure Optimization Architected backend to eliminate ongoing hosting costs entirely – running a platform with 10k+ products and thousands of daily transactions at \$0/month in server fees.</p>	

4-App Multi-Vendor E-Commerce · Flutter

- CHALLENGE** A marketplace needed to serve four distinct user types – shoppers, merchants, delivery workers, and admins – each with different workflows and permissions.
- SOLUTION** Four dedicated mobile apps with an in-app wallet & currency system, QR-code verified delivery, merchant shop management, and a real-time admin analytics dashboard.
- RESULT** Launched a fully operational multi-vendor ecosystem with seamless end-to-end transactions and verified last-mile delivery. **End-to-End Marketplace**

Multi-Tenant SaaS · E-Commerce Infrastructure · In Progress

Sawiqqli is a large-scale multi-tenant SaaS platform that empowers businesses to launch and operate fully branded online stores – each with its own subdomain, storefront, product catalogue, order management, staff system, and branding. Built from the ground up with enterprise-grade architecture.

PLATFORM ADMIN

- Shop provisioning & tenant management
- Activate, suspend & cancel shops
- Global shop listing with filters
- Subdomain availability check
- Platform user management

SHOP OWNER / STAFF

- Full product CRUD, image mgmt, stock
- Orders: create, status transitions, cancel
- Hierarchical categories & slugs
- Staff invite by email & token accept
- Branding: logo, theme colors & fonts

PUBLIC STOREFRONT

- Shop info, theme & branding
- Paginated products with filters
- Category & price range filtering
- Customer account & address book
- Dynamic subdomain per tenant

CROSS-CUTTING ARCHITECTURE

- JWT auth with access + refresh tokens, JTI blacklisting & rotation
- Image upload with WebP compression, EXIF stripping & resize
- Tenant status guard on every authenticated request
- Dynamic CORS with wildcard subdomain support

Café Management System · Mobile App · Flutter

- CHALLENGE** Eden Coffee House needed a complete digital operations system to manage orders, staff, menus, and the full customer experience — replacing manual, error-prone workflows across all branches.
- SOLUTION** Built a comprehensive Flutter-based café management system including a customer-facing ordering app, a staff operations app, an admin dashboard for menu management, reporting and branch oversight, and an integrated payment flow.
- FEATURES** Real-time order tracking, customizable menu with modifiers and variants, shift management for staff, revenue and order analytics, table and take-out order flows, and push notifications for order status updates.
- RESULT** Transformed Eden's daily operations — reducing order errors, accelerating service times, and giving management a real-time view of performance across all branches. [Full Café OS](#)

Lumithree

Canadian Brand · Web + Mobile

Built a custom API bridging a WordPress site to a Flutter mobile app with geo-targeted pricing by user country currency, plus in-app PDF catalogue sharing via email and social media. Expanded the brand's reach to mobile users internationally without rebuilding the existing website.

[Cross-Border Mobile](#)

Good Watch

Social Platform · Movies & Series

A social media app for movie and series lovers — featuring content discovery and search, personal watchlists (Watching / Watched / Want to Watch), community posts and reactions, and sign-in via Email or Facebook. Merges entertainment tracking with social interaction in one focused experience.

[Social Entertainment App](#)

MORE WORK

Diverse Sectors, One Standard of Quality.

AI Platform · Audio Intelligence

An AI-powered audio platform leveraging machine learning to deliver intelligent audio content discovery, summarization, and personalized listening experiences.

ISP Portal · Internet Services

A digital management platform for Supercell For Internet Services LTD, streamlining subscriber management, service provisioning, and customer-facing operations.

Ghaylan Al Broug Construction

Corporate Website · Landing Page

A professional landing page for a construction company featuring a project showcase gallery of completed work and a streamlined contact section for placing orders with management.

Dr. Khaled Hannouneh

Medical Website · dr-khalidhannouneh.com

A dentist's personal website with working hours, before/after patient testimonials, procedures showcase, and full clinic contact details with map location.
